

## **Comments from Membership**

- Michelle Anderson announced that Wentworth Park t-shirts are available to be purchased. Let her know if you are interested. One order has been placed and another will go in when enough t-shirts are ordered
- Tom Brown asked if he could bring dirt in to fill in the low area on Association property behind his house. The area is very low and a good home for mosquitoes. The Board had no objections to dirt being put in that area.
- There is a problem with raccoons in the Wentworth Park Area. Game Fish and Parks have been contacted by some people to get rid of raccoons that have moved into and under their homes. Holly Stubbs stated that she has raccoons on her roof.
- Bob Bucknell stated that if you have any metal pieces to get rid of, put it in his pile on the west side of the Broadwater as he has a person that will pick the metal up.
- Bob Bucknell thanked Steve Kant for cleaning up the flower garden and adding the flower planters.
- Mike Thompson was thanked for serving on the Board.
- Rhonda Buckneberg thanked Michelle Anderson for all the work she does. Jim Anderson was thanked for the mowing he does.
- Wentworth Park website address is [wentworthpark.net](http://wentworthpark.net). Please visit it.

## **Adjournment**

Lorna Boetel motioned to adjourn the meeting at 12:30 pm as there was no further business. Christy Gulbrandson seconded. Motion carried.

FYI: Jim and Michelle have walked around the park property around where the green will be. There is a lot of washout in that area. There are holes that used to be land under your feet. It is a problem that probably needs to be addressed.
