

## **Other Business**

Michelle explained that for the past 11 years, the District has had money to use because some people did not pay the initial \$2,400.00 right away. Therefore their payment over the years plus the interest that was paid was used to pay for the bills. At this time those bills have for the most part been paid so that income is no longer coming in.

There was a suggestion that the District goes to the bank and asks for a line of credit in case of emergencies. Michelle stated that she would ask the bank, in which the District has been doing business, for the credit.

The question came up as to how long the road will last once it is chip sealed. The answer was that; if the cracks are repaired yearly, it should last another eight years before another major project will need to be done.

## **North of Creek Road**

There was discussion on whether to bring people north of the creek into the Road District. Michelle spoke with the attorney and he explained to her that those people have to have their own election and vote on whether that's what they want. If that is passed, then the Trustees of the existing Board have a meeting and can bring them into the District. This will be brought up again at the next meeting which will be sometime in September. The township needs to be contacted to see about snow removal for people north of the creek. Terry explained that whatever structure is built over the creek will be the responsibility of people north of the creek and not the people of the Road District.

## **Adjournment**

At 8:10 Michelle motioned to adjourn as there was no further business. Bob Phillips seconded. Motion carried.

**If anyone wishes work done while Seal Pros is here working, you are urged to contact Greg at 767-3501 and get a quote.**
